SUMMARY

Passionate about solving real-world problems through artificial intelligence, with a keen research mindset and hands-on experience in generative AI. Proficient in Python, AI & ML frameworks, data preprocessing, and feature engineering. Agile and eager to solve challenges and explore new technologies.

TECHNICAL SKILLS

- **AI & ML:** Generative AI (GenAI), Amazon Bedrock, LangChain, LangGraph, Amazon Q, LLMs, Agentic AI, Machine Learning, Deep Learning, NLP, Scikit-Learn, Pandas, NumPy, OpenCV, SageMaker
- **Data, Analytics & Tools:** Excel, Power BI, MySQL, SQL Server (SSMS), Git, GitLab, AWS (S3, Lambda, API Gateway – Basic)
- **Frameworks & Web:** Flask, Streamlit, PyTorch, React.js, Bootstrap, HTML5, CSS3
- **Languages:** Python, C++

PROFESSIONAL EXPERIENCE

Maxnet Technologies | Pune, Maharashtra

AI Engineer (Contract) | Mar 2025 – Sep 2025

- Built an automated tool with LangChain and Python for UiPath, which cut the need for manual work by over 90%.
- Developed a smart AI assistant that could understand user questions in plain language (NLQ) and provide clear, helpful answers based on data
- As part of a team, created several AI agents to track trends and gather news, improving the company's access to real-time information.

MyEquation | Ahmedabad, Gujarat (Remote)

Technical Content Curator - RoboAI Program | Mar 2024 – Jun 2025

- Researched how AI and machine learning could be used in robotics, writing clear technical guides for the RoboAI program.
- Was recognized by the company's COO for my research quality and for finding new ways to apply AI in the industry.

Graphix Technologies | Pune, Maharashtra

Front End Developer | May 2022 – Jul 2022

- Worked with a team to build the company's new e-commerce website using HTML, CSS, and JavaScript, which improved mobile user experience and increased engagement by 25%.

PROJECTS

Movie Recommender System

- Built a content-based movie recommender using Scikit-Learn to analyze data and provide personalized suggestions.
- **Technologies Used:** Python, Pandas, NumPy, Scikit-Learn, Matplotlib.

Real Estate Price Prediction

- Developed a price prediction model using Linear Regression after cleaning and preparing a historical real estate dataset.
- **Technologies Used:** Python, Pandas, NumPy, Scikit-Learn.

EDUCATION

Savitribai Phule Pune University | Pune, Maharashtra

Bachelor of Engineering (B.E) in Computer Engineering | Expected May 2026

D.Y. Patil College of Engineering | Pune, Maharashtra

Diploma in Computer Engineering | Aug 2020 – Jul 2023

CERTIFICATES

Machine Learning Specialization: Completed the 3-course specialization by DeepLearning.AI & Stanford University (Coursera).

J.P. Morgan Chase Virtual Experience: Completed a virtual job simulation focused on software engineering.

Generative AI to AI Agent Masterclass for Software Engineers (Udemy)
